

[Portable Transport Suspender Halter For Laptop Or Notebook Type Comput- ers]

Abstract

An economical lightweight portable Laptop or Notebook Computer holder that can easily, without tools, be attached to most vehicles both public and private (Photos #1,2,7,8,9). It is versatile enough to easily be moved to different places in a vehicle for other users (Photos#7,8,9). The straps and base are made of a strong and durable yet soft and flexible material (Photo #15). Its design provides for proper air circulation and cooling (Photo #5) as well as access for plug in accessories (Photo#6). In addition to holding a computer in a transportation vehicle it can be worn by a person and hold a portable computer for use while walking or standing (Photos#13,14). This same holder can easily convert to a computer carrier with a handle or shoulder strap (Photo#11,12). Additionally this same holder can be used as a Desk Work Area or a Child's Play Station (Photo#2,10).
